JOB REFERENCE: JAVA DEVELOPER

Dear HR,

I am writing to apply for the Java Developer position, with my strong passion for Software Development and my intensive training program experience,

As an experienced fresher, I have recently completed an intensive training program that spanned over 8 months. This comprehensive program involved self-learning and hands-on experience through two live projects. Additionally, we had the privilege of receiving weekly reviews and guidance from industry experts, which allowed us to continually refine our skills and knowledge.

One aspect that sets my training program apart is its rigorous nature, as evidenced by the completion rate of only 40-50% among participants. The stringent requirements of the program have ensured that only the most dedicated and capable individuals complete it. By successfully navigating this program, I have proven my determination, adaptability, and ability to thrive in challenging environments.

I firmly believe that my training program, coupled with my natural inclination towards learning and self-improvement, has equipped me with a solid foundation in web development. I am confident that I can leverage this knowledge to contribute to the success of this Company.

In addition to my training program, I am open to taking a specialized machine test that is tailored for 2-3 years of experienced professionals to showcase my skills and practical understanding. I am confident that my technical proficiency, combined with my dedication and drive, make me a suitable candidate for the Java Developer role at this Company.

I have attached my resume for your review. Thank you for your time and consideration. I look forward to the opportunity of discussing my application with you further.

Sincerely,
Muhammed Midlaj
